

NEW WEBINAR: World Orthopaedic Concern UK

Mr Alberto Gregori

Wednesday 13th May 13.30 – 15.00

Join internationally renowned Consultant Orthopaedic Surgeon, Alberto Gregori, to hear how his amazing work has helped people in developing countries across the world.

World Orthopaedic Concern UK is a charitable organisation dedicated to improving the standard of orthopaedics, trauma and reconstructive surgery in low/middle income countries.

The British section of this organisation has particular associations with a number of projects in specific developing countries.

Their objectives are:

- To provide orthopaedic education to institutions and persons and, where appropriate, to support all aspects of developing an orthopaedic service
- To help and give advice to those engaged in orthopaedic training, research or service programmes
- To act as a facilitator for other UK based organisations and persons engaged in the provision of orthopaedic training and research
- To support and facilitate activities related to provision of orthopaedic training such as capacity building and disaster or conflict relief
- To act as a pressure group in the UK regarding the need for orthopaedic development
- To support the fund-raising needed to allow our objectives to succeed
